

Professional Resume

Alpine Aire Heating & Cooling, Inc – est. 1986
1306 Walnut Street
Wenatchee, WA 98801

Objective: To manage the safe delivery, installation and service of residential and commercial HVAC equipment using the highest quality parts and equipment. Alpine Aire maintains a trained and knowledgeable staff of technicians through continuous education and training. We strive to foster a positive and friendly atmosphere with our customers, coworkers, and community.

Service: Alpine Aire employs only the top technicians in our service area. In addition to exceptional mechanical aptitude, our technicians are trained to listen and respond to customer requests and concerns (such as uneven temperature balance).

Alpine Aire Service Technicians are:

- State of Washington Specialty Electrician 06A
- Universal Refrigerant Handler Certification
- NATE Certified

We service and maintain all facets of HVAC systems including:

- Residential Heating and Cooling
- Commercial Controls
- Large Roof-top Units
- Chillers & Boilers
- Liebert / Bard systems
- Electric, Natural Gas, and LP systems

New Construction and System Replacement: Alpine Aire is a local expert in residential and commercial new construction and system replacement. We are proud to have worked on major projects in our community, including:

- Garden Terrace – Replace corridor ventilation
- SunOpta – Factory Floor Cooling
- Red Lion Hotel - Natural Gas Roof Top Replacement / Boiler Repair
- Wyndham Resorts - Maintenance and system replacement

Our team of installers is experienced in: *forced air heating and cooling, zoning, boilers, in-floor radiant heating, heat recovery ventilation, electric, natural gas, propane, fireplaces, black iron gas piping, and much more...*
